

**DESTINATION
IMAGINATION®**

INTERFERENCE RULES

- Only **team members** may repair props and costumes.
- Only **team members** may do their hair, apply makeup, and put on costumes.
- Only **team members** may move props from the launch area to the presentation area.
- **During the presentation**, the team **MAY NOT** involve the audience. Also, audience members **MAY NOT** communicate with the team in any way.

In **DI**, the solution belongs to the team members and the team members alone. All **ideas**, **scenery**, **scripts**, and **props** are created by the team members. No one outside the team may help in any way with the solution to the Challenge. **Team members** will sign a contract prior to every tournament stating that the solution is theirs and no one outside the team helped. **Rising Stars teams** have modified guidelines for interference rules.

SAFETY is always important.

If an adult points out something to the team that is considered unsafe, this is not interference.
